TECHNICAL PROJECTS

CHATGPT-POWERED ENGLISH SPEAKING PRACTICE APP
- Identified an opportunity to leverage artificial intelligence to facilitate natural and engaging conversations, fostering a non-judgmental environment for learners to enhance their speaking skills.
- Incorporated OpenAI API to produce authentic responses and utilized Eleven Labs API for text-to-speech conversion, culminating in the development of a human-like voice chatbot.

E-COMMERCE: AO DAI SHOP
- Engineered and launched an e-commerce application, resulting in a fully functional shop.
- Employed Hygraph Headless CMS for product management, harnessed GraphQL for client-server communication, and incorporated Snipcart for shopping cart functionality, rendering the application production ready.

PORTFOLIO WEBSITE
- Designed and developed a portfolio website utilizing HTML, CSS, and JavaScript, yielding a responsive website across multiple devices and functional on JavaScript-disabled browsers.
- Optimized the website for Performance, Accessibility, Best practices, and SEO in Google Lighthouse test by refactoring code in alignment with industry standards, resulting in perfect scores (100) across all four categories.

SKILLS

- Technical skills:
    - Proficient: Python, JavaScript, NodeJS, HTML, CSS, Git
    - Familiar: C#, C, React, SQL, NoSQL, GraphQL, AWS, Firebase
- Computer skills: Microsoft Word, Excel, PowerPoint
- Soft skills: communication, teamwork, problem-solving, adaptability, and leadership
- Languages: Vietnamese (native), English (professional – IELTS 7. 5), French (basic)
